

Emergency Water Restrictions are being mandated across the United States

How will your company handle this? The Silver Bullet Water Treatment System can be implemented quickly and affordably to ensure your company doesn't dry up.

Efficient water usage is more important than ever.

Palmer Drought Index June 2012

Fight the drought with our water saving solution.

Reduce Water Usage

The Silver Bullet™ uses 10-40% less water than traditional chemical cooling towers.

Save Water

The Silver Bullet™ is estimated to save at least 1.7 billion gallons of water annually by the end of 2013.

Get a Rebate

The Silver Bullet™ typically qualifies for a rebate from water utilities that offer commercial water savings programs.
